

```
FileReader fileReader = new FileReader(filename);
BufferedReader bufferReader = new BufferedReader(fileReader);
line = bufferReader.readLine();
while (line != null) {
    //xử lý ở đây
    double num = Double.parseDouble(line);
    System.out.println(num);
    line = bufferReader.readLine();
}
bufferReader.close();
fileReader.close();
```
